Quote:Where have you been this whole time? You badmouthed Reborn because it's not universally liked... Well neither is RenAlert. I gave you an example before you ever even asked for one.

Wow you really are an idiot... I bash Reborn BECAUSE IT SUCKS... How hard is that to possibly comprehend?

Quote:Well, from what I've seen of the models, textures, and maps you've created, apparently you don't require yourself to live up to the expectations you have for the rest of your team. The more I see of RenAlert, the more it seems like you're really the weak link in the whole thing. The mod would probably be a lot better without you.

lol...
