argueing is fine, but saying "This mod was a waste of my time to play" Has the same effect as "You Suck!", it's just a lot easier to take. Tact people, tact.

tact (P) (tk)

n.

Acute sensitivity to what is proper and appropriate in dealing with others, including the ability to speak or act without offending.

Note that even though it refers to not offending someone, that doesn't mean what you say won't offend. Just say what needs to be said in a way thats less impacting, but says the same thing.
