c0nFuZ0rSomething screwed up when I opened Renegade

It opens up and it goes to the left of the screen. where I can't reach it.

<http://img33.exs.cx/my.php?loc=img33&image=HELLP.jpg>

When I hit the windows key to get out of it it just minimizes so I can't look for it and drag it back over.. what should I do. :crazy:

I think you just wanted to show off your wallpaper.
