1) Great work on fixing this script. I, too, feel that scripts made should be scripts shared for everyone to use.

2) Competition IS a good thing, but I can't agree with the blatant and strong "Reborn bashing" that goes on around here. You've all crossed the line of constructive criticism and into the realm of destructive criticism. If Reborn is truly that bad (which I can agree it needs a LOT of work), then it will fail on its own instead of continuing this attack.
