ok, bhs.dll now has working Enable\_Stealth, Set\_Animation, Set\_Animation\_Frame, Create\_Explosion, Create\_Explosion\_At\_Bone, Set\_Fog\_Enable, Set\_Fog\_Range, Set\_War\_Blitz, Fade\_Background\_Music, Set\_Background\_Music, Stop\_Background\_Music, Create\_Sound, Create\_2D\_Sound, Create\_2D\_WAV\_Sound, Create\_3D\_WAV\_Sound\_At\_Bone, Create\_3D\_Sound\_At\_Bone, Play\_Building\_Announcement

At least I hope they work, they worked great in my test

Next up, the emoticons bugfix plus the 14 scripts listed below.
