You guys are very stupid, so let me make it easier for you:

X800 PRO VIVO SOFTMOD to X800 XT Platinum edition With full 16 pipelines and XT PE core speeds:

<http://www.rage3d.com/board/showthread.php?t=33766704>

X800 pro VIVO is the EXACT SAME CARD AS THE XT PE, IN FACT ITS BETTER because you get bonus video capture

end of discussion buy this card and do a softmod to it.
