AlkalinespreegemIf I had the money I would gladly take one of them for either a Renegade server, or a server for my site so that I could mirror RenAlert .993 . . . but unfortunately I do not have that kind of money right now . . . When will this deal be ending anyways?

I would need to have somone by the 23rd, on the 24th I put in my cancelation request (you have to give them 7 days in advance when canceling your server)

so the deadline is the 23rd.

Also for you lazy bums that are too lazy to look at the calendar, that's this up coming Monday.
