If "Reborn is greater than Renegade Alert" why is it that we've had well over 350,000 downloads, along with several dedicated servers and over 2,000 unique players per month?

Yet there's like 5-10 people who play Reborn a month.

My name isn't "ACK," either. If my name is "ACK" then I'll make sure your name is remembered as "Idiot," but then again enjoying Reborn already gave you that title...

The Titan looks like plastic. I happen to build plastic vehicle models in my spare time, and that looks just like it.

Compare my M1A1 Abrams to his Titan. Notice how similar they are in surface appearance? The Abrams isn't painted, it's simply got water-paint dilution effects for dirt, oil, etc on the surface of it.

The Titan looks like misproportioned plastic. As such, it looks like ass.
