zunniel dont care if there are more people who start cheating[zunnie]

lol u dont but some do... i play on tfsrv all the time and there is no cheater in months...my point is that IF people want a cheater free game to go RG servs, if they dont care then go to other servs.. there are always some empty RG srvs...

why r u forcing everyone to play on rg srvs... u do if you want, if other dont play on rg srvs then its their loss...
