JavaxcxXKMonkeyJavaxcx1st off: The pistol in Renegade is not automatic.

I do believe when you hold down the trigger, it continues to fire automatically. You don't have to click for every shot. Wouldn't that make it an automatic pistol?

Wouldn't that also mean you have an automatic sniper rifle, shotgun, and automatic warheads in a tank?

I do not think so.

It's automatic if it keeps firing while the trigger is depressed. So if you look at it that way, yes those are automatics. They just fire alot slower.
