...

Don't start that conspiracy crock... FBI, come tap my phones, Gmail, please read all my e-mail. USPS can open all my mail, and if it doesn't hurt to apply it, slap a bar code on me brotha, I don't care. Why would ANYONE? What kinda world have we come to where I don't want the FBI to know that I am going to Petsmart, or that it's an INVASION OF PRIVACY that Gmail can SEE that I get a newsletter from saltwaterfish.com. OMG THINK OF THE MALICIOUS THINGS THEY CAN DO WITH THAT VOLATILE DATA THEYVE MINED FROM ME. OH N0SSSSsssss!
