---

macl'm burned out with renegade. Cant get myself to work on it. Too much work. RenGuard is on the backburner, so is brenbot, until I can find some motivation to work on it. People taking everything as granted certainly does not help..

Few bugs to fix, and some stuff to add, as far as I can remember.

Sorry :(

I hope you know that we all or at least most of the Renegade players and certainly the server owners VERY HIGHLY appreciate your efforts

You guys doing a very nice job! Having BRenBot, RenGuard and the CP1 soon will hook up alot of players again

Thanks

[zunnie]
