Hm...that looks ok.

The texture needs a lot of fixes. For one, the windows need to be changed. The wheels look like they are so rusted that they won't be able to turn. The front cab really does look like concrete, looks more splotchy than scratched. The texture looks a little warped on those two things sticking out of the back. The orb thing in the back needs a couple changes to the red areas, they look more painted on than different materials.

I like the model a lot, but you need to go back to the drawing board with this texture.
