Lol that got me banned from so many servers cause i kept spamming the Cntrl 0 command. Very funny, lots of new commands, alot of them play, it put alot of fun back into playing renegade thats for sure lol.

Wow that was fun spamming commands, everyone asked how to do it, yet they all tried by doing // before everything lol.

Make more with funnier commands, more goofy ones lol, id love to hear one that says "Fine ban me idiot" or something along the lines lol.
