---

macl'm burned out with renegade. Cant get myself to work on it. Too much work. RenGuard is on the backburner, so is brenbot, until I can find some motivation to work on it. People taking everything as granted certainly does not help..

Few bugs to fix, and some stuff to add, as far as I can remember.

Well thank you for the work you do mac. When the new version comes out i will try to convince my admins to use it. (the IP ban feature will probably swing it )
