HydroMe and Homey cannot connect to westwood. We get "requesting server list..." and it times out. We live in Canada and we live about 1 hour away from eachother. Alot of our friends can get on. We restarted our internet modems to get a New ip and same problem. We live in Ontaro, Help.

-LTHydrox-

Where in Ontario do you two live. I live to the east of Toronto....and I have had no trouble at all connecting....
