fact P Pronunciation Key (fkt)

n.  
Knowledge or information based on real occurrences: an account based on fact; a blur of fact and fancy.

Something demonstrated to exist or known to have existed

Is it not a fact that my opinion of Reborn exists, and as such, it paints Reborn in a bad light (not that they haven't helped this a LOT) too? Find out the definition of words before you argue about them, please.

Even if that tank was a Light Tank, it's damn near impossible to see any details on it or figure out what the fuck it was based on.
