The ghost idea is completely dumb anyway.

ABout the things reborn creates... Well do you even think Obelisk or Tiberium is real ?

Tiberian Sun universe is science-fiction, it allows creativity but we don't add paranormal shits like your ghosts or the crappy woods of Robin Hood...

Imagine this : Reborn with a map based on the little mermaid universe... Jesus... I am happy about one 'fact' : You can't decide anything for Reborn.

I read all the topics above. One difference between Reborn team and you.

We bash ONLY you ( and sometimes your stupid ideas like 'ghosts'... ), you bash the whole mod, its fans and the team and you try to turn everyone in this community into a Reborn hater... Who is stupid here ? You.
