liberatorThey probably don't want a riot. I mean the way the Lefties(dems, commies, ect) have successfully divided the country, it seems like we're on the verge of civil war sometimes. Of course a civil war can't happen in the USA because the president would just send in the army and smash the insurgents before they could get a head of steam.

LOL, there are no riots here, why would there be any in the United-States after a REAL debate?
