BlazerBah, one of these days I'm going to dig into Gmax and LevelEdit and make the best map ever

Hmmmmmm.... *Imagines one of Blazer's maps*

I can see it now. The map is shaped like a woman's body.

I go and download the map and test it out on 1 player Lan with a Minigunner. My minigunner running on the map and all of a certain and I see something and say, "?!?!?!?! Is that what i think it is near the Hand of Nod?!?!?!?! Must get closer to investigate."

Hehehehehehe.... I'll just leave it as that and let y'all minds wonder off. Must go to work and protect packages.
