TGZ is very appreciative of your comments, The Unadahm team are civilisation living in the Underworld, they used to live with Orich (The Good Civilisation) until Unadahm was casted to the Hell, The Underworld.

Unadahm is a gothic/possessed/evil civilisation, due to being forced like this in the underworld.

Here is a screenshot of the Imp in-game, Psychoarmy has been working hard on the custom animation set, here is us controlling the Imp and a few running towards us.
