Well here i go with a HUGE review...

Game Cam is better for me.

Just kidding... let me say more...

FRAPs takes only 30 seconds or video that can amount to 300mb in total, and shows FPS.

Game Cam Lite is unlimited time without the FPS but can do a 5 minute video at 150mb.

I like Game Cam better, who needs quality when you have LOTS AND LOTS of quantity?

But I guess that it all comes out to what you need and why.
