AirCraftKiller and I have differences, but this time hes right. Too many weak minded people are giving in to Democratic propaganda, and before you say Im giving into Republican propaganda, Drop all political preference when you listen to Debates. If you did, you would realize that Democrats talk around questionsmost of the time, give vague answers and References, and twist the facts such as Edwards tried to do against Cheney in the VP, luckily Cheney came prepared and quickly informed the Country that Edward's informationwas outdated BY ONE FULL YEAR.
