tell that to the millions that have died from various nerve agents.

Quote:Mass destruction weapons are atomic missiles... not stupid old chemical stuff.

That's the dumbest thing I've ever heard. Sure atomic/nuclear weapons are flashy and awe-inspiring, but compared to a barrage of chemical artillery shells, the kill count isn't that different, they just die faster. Chemical weapons also have the major advantage of being highly controlable, they either disperse through natural breakdown or can be neutralized with the appropriate counter-agent which are also deliverable by artillery shell/bomb.
