Great...the Taliban try to stop the election, kill some police and civilians...the election ends up falling apart and who gets blamed...the UN. Also it sounds like no matter that masses are voting of their own free will, they still imply that we are forcing it or forcing them to vote for the US backed president:

Islamic poet Abdul Latif Padran, another minor candidate, said, "Today was a very black day. Today was the occupation of Afghanistan by America through elections."
