ToolstyleThat's desert camouflage not forest camouflage, you may notice they are in a desert not a forest . The orange tip is a dust cover for the rifle, as grains of sand can seriously fuck up a rifle's firing mechanism (See Gallipolis assault in WWII)

I know, but why orange?

You'd think it would be a different color. It looks like a toy gun with that on.

Besides,if they were taught how to take care of their rifle they wouldn't need the cap.
