Renardin6I was just trying the reborn shotgun to see if the file for first person view was accepted. duh...

the file wasn't objects.ddb, fg_mshot.w3d or something like that, lier.   :rolleyes:

And I can get a proof of it. (I can ask mac if you want.)
BlazerThis is the ONLY instance I could find of Renardin being kicked by RenGuard, and it was for a shotgun texture, not an objects.ddb file.
