<http://www.prtnetwork.net/tweekbee/Maps/Tweek'sMappack.rar>

Tweekbee has finished updating his maps and getting them ready for Renegade Alert .9932. Feel free to host a server to try them out, once I return to college I'll put a 16 or 20 player one up that plays these maps. However right now I'm at home on my 2mbps connection, so I can't do that kind of thing =P
