WHOLY CHRIST THATS A HUGE SIGNITURE. And whats with all the iron nazi crosses?

Huge, I already know. And nazi, well, the Iron Cross is a German Navy medal (Eiserne Kreuz, of the Kriegsmarine). The swastika is a nazi sign. And of course, neither me nor my friends at PlanetSHIII and the 24th Flotilla have any nazi beliefs, we just focus on the WWII theme and specially, on the Kriegsmarine and its U-Boots, playing Silent Hunter II to have fun and will play SH3 when it comes out. Quite simple.
