Lets just make one thing clear. I'm not for or against Reborn or RenAlert, in all fairness, my opinion is they both suck.

But anyway...

Carrying your little vendetta over to CS Source is appssolutly pathetic. You seriously need something better to do in your spare time other then bashing Reborn. I don't see Reborn bashing RenAlert every chance they have?

This is a community. Everyone is welcome to it. There is no ruler. There is no leader. Mod bashing is pathetic and isn't needed. It's people like you who are driving away people from this community where in fact we could gain members.

Get used to it. You (RenAlert) both (RenAlert and Reborn) suck. And your pathetic nontheless.
