m1a1_abramsAh, but I must refute that notion. It's definitely possible to make a comment in a thread that you don't care about, providing you're really bored at the time. This post is proof of that I think.

Fair enough, just saying that posting "I don't care" will get you flamed, it most often, if not always does. It is a sad state of affairs really but 50% of the threads on these forums turn into flame wars anyway.
