AircraftkillerIt's not addiciting. I touched it again the other day and was laughing at how pathetically easy it is to play compared to CS:S and Half Life 2. Not to mention how ass it looks.

Aircraftkiller is right. The game is nothing like it could and should be. I loved the game when it first came out, but now everything makes it less and less enjoyable to play. It was addiciting, but with so many new great games out, Renegade has taken the very back seat of a charter bus.
