I'm glad Renegade isn't dying. I've had this game for years but haven't played it online yet, and I'm glad to see so many people are online.

I say, keep the community going. It's a good game with a good engine, keep it going as long as it can!

I know of another game called Battlezone (made by Activision) that I made a really good mod for. It's a 6 year old game and it's online community is struggling, but still strong. Some games just wont die!
