same here:

If you experience problems with renegade (e.g. renegade wont start, always.dbs missing, wrong language), make a note of what this program says and report it to Blackhand Studios.

Removing old always.dbs

Removing new german always.dbs

Removing new french always.dbs

Renaming new english always.dbs

Now renaming scriptsx.dll to scripts.dll

Then when i deleted scripts.dll edited the registry and it downloaded cp1 again it worked.
