Fire can not burn water!!!

Sorry, but for a topic that got the RenAlert (community) vs Reborn (community) going again, there was a distinct lack of insults being passed around. I though I'd make up for it.

But on topic though, despite the inability to play it, I too wait for the Dead6 mod. It's created enough hype to at least make me interested in what the final product is like.

Let the Dead6 vs RenAlert vs Rebon wars begin!

Preferrably not, but knowing what happened with Renegade....
