If that is the case, I'd say I agree to a certain extent.

Renegade might be dying, but it won't die so fast. Not in a few months. If any n00bs come by and say he wanna quit, it doesn't change anything. As long as EA at least keep the Ren server up, there are still servers running and people playing. Mods are being rolled out. No, Ren is no longer popular, but there ARE players that still enjoy it, no matter because its relationship with C&C, its simplicity or whatever reason.

Balanced conclusion. Satisfied?
