A bit too late i guess, anyway:

I should reinstall Renegade, then use the Westwood patch to patch it to version 1.037. Then install RG and update to CP1.... That should do the trick.

Before you reinstall Renegade, you need to delete all files in the x:\Westwood\Renegade\ directory (where x is the drive where you installed renegade) So, make sure you didn't leave (corrupted?) files behind!

Rex

PS: If you need immediate help, you could have gone to the IRC chat. (If you never heard of IRC, try this link: <http://www.n00bstories.com/irc.php>. Or else just connect to [irc.n00bstories.com](irc://irc.n00bstories.com) channel #BHS_Spport
