SlashOx, that is an AWESOME map. Best one I've ever seen made for Renegade.

The atmosphere is incredible, and contrary to what the Mr. Cynical Dumbass says, the textures are quite well applied.

Also, cowmisfit, your entire critique of the Stealth Tank amount to 4 things, none of which have a major impact of the model, and you declare Renardin to be an idiot. WTF is that?

Oh, wait. I almost forgot. You're a Bush supporter.
