Show me proof as to where I said anything towards him that was anywhere near a flame, before he did, and don't go quoting that one again because it's clearly not a flame. I'll give you enough credit to believe that you know that.

I've read every post that you've made. I don't care whether or not he's respected, the fact is that I didn't know who the fuck he was when he first posted, and since he's a newbie to the forums, I had every right to say it.

Don't say a private joke that I'm not a part of. You were asking for me to hold that against you. I've presented arguments just as well as you have, but you seem too stuck in your ways to see that. I only said the intelligence remark because of your misspelling. Maybe I'll just say that's a private joke and expect that you were supposed to get it. :rolleyes:

He's an idiot, and I'm not just talking about this thread.

He wasn't a part of our conversation, and he decided to butt-in. Hence why I said that. Since I AM a part of the conversation, I'm using my judgement to say that I am a part of it.
