Easily debunked...

1) Where are those people who died if they didn't die. One of the passengers was the wife of a politician (can't remember who)... I think we'd know if she didn't really die.

2) Blazer had a 16th-ish story condo in Arlington, VA and actually saw the plane pass his window on the way to the Pentagon... so close that he could have seen their faces. (except that it was going quite fast)
