So...when r u gonna give a havoc an Uberpowered c4 that can blow up buildings with one bomb? point is - C&C Tiberian Dawn is NOT Renegade whether its based on it or not. The way they made Havoc, is the way they wanted to make him. And that also says u cannot direct EVA to deploy them at your barracks....but they made that possible in Renegade. In my eyes, changing the damage values to Havoc would be a crime against the community. Some stuff should be left alone...
