not played renny in a while..

after downloading the CP1 the other week i had a game on n00bserv 01 last night.. 2 greats games and then C&C canyon came on..

Renegade crashed windows popped up with an error

thought fine.. relaod

renny crashed again

i took a look in irc and noticed half the server had droped on that map load

is there something wrong with it? worked fine before >_<
