Also, don't forget, you're the one who started this cheating shit. You goaded Ty into making a cheat program and brought the cheating programs on everyone indirectly, and then kept telling him to do it.

Also, that goading shit is bull.....he made the cheat program of his own accord, all the community did was say "right now, there isn't a working cheat available.....you show us one, and we'll deal with it in the right manner". goading would be "ha ha there will never be a cheat available for c&c renegade".
