Subject: multi player lan game help
Posted by Sk8rRIMuk on Wed, 09 Apr 2003 10:08:34 GMT

pceuclidhow can i know if it include bot
thnx
thnx eeveryone

There are only certain maps that include bots...

The only default maps you have with bots are tp missions and the skirmish level...

So unless you are playing one of those or playing a mod map you downloaded you will have no AI...

Ask if you would like a link to some AI maps to download....

If you have another user on the network set the game to 2 players so he/she can join...

To join other games you must either have another game running on the LAN connection or be on the multiplayer service.

EDIT: Just a note AI does not take up player slots likke in previious CNC's you can hav as many bots as you want without having to increase th number of players
