The fact that you belittle the successes of the war is disgusting warranto. He makes a point that we found WMDs and you try to make that into a bad thing...bravo, take a seat next to the other Mindless Drone.

Geneva Conventions

ARTICLE 13

Prisoners of war must at all times be humanely treated. Any unlawful act or omission by the Detaining Power causing death or seriously endangering the health of a prisoner of war in its custody is prohibited, and will be regarded as a serious breach of the present Convention. In particular, no prisoner of war may be subjected to physical mutilation or to medical or scientific experiments of any kind which are not justified by the medical, dental or hospital treatment of the prisoner concerned and carried out in his interest.

Likewise, prisoners of war must at all times be protected, particularly against acts of violence or intimidation and against insults and public curiosity.

Measures of reprisal against prisoners of war are prohibited.

You fail to see that ensuring Mental Stability is in no place in this article. And lack of sleep, playing music, barking dogs, and sitting on the floor can hardly be deemed: "seriously endangering the health of the prisoner."
