j_ball430Steam accounts are free.

Yea the account itself is, but is steam the only way you can "buy" it? I haven't seen it in shops... Unless they are sold out lol. (i keep seeing that steam thing everywhere so that's why i'm thinking that...)

I tried to download the demo... but... it's so big it takes 300 MINUTES to get it.

So that's a big no then. So unless you can buy it anywhere i will not be trying it, or upgrade my pc...
