Yeah... okay...

If a AK hit me in the foot, leg, arm, hand, or arm pit I would die, right? Because that's what you said...

Quote:Newsflash, even Kevlar doesn't stop 10 bullets aiming for your head. Armour does help you. A single 7.62mm round from an AK will kill you just about anywhere if you don't have armour.

MOSTLY ANYWHERE? Don't you mean NEAR VITAL ORGANS.
