Yes, it does tend to be like:

```
                SHO+
SHO+
        SHO+                SHO+
                TAR+GET
        SHO+                SHO+
SHO+
```

Damn it, this thing doesn't keep the spaces!
