I don't suppose it is like this is it?

<http://www.n00bstories.com/image.fetch.php?id=1044312409>

If so, I fixed this by deleting the all the controllers associated with vehicles (so, Ref, Wep/Strip, repair pads, etc.) and added them again.

I then did a floodworld and exported as a mix, this then worked and only one harv from then came out

This bug was caused by going a bit mental with controllers, possibly if you make a temp of the building controller presets.

Hope I helped,

Andy.
