Here is my daily driver, 2wd GMC 3/4 ton, 350 horse 355 with tuned port fuel injection

Here is my trail rig. Its a 4x4 GMC 3/4 ton, 4.10 axles with a posi out back, locker up front, and a divorced t-case. Shes got a stock 350, about 200 horse I named her Ugly

I plan to combine the two trucks into one nice 4x4, I've got a third parts truck with a good body that will replace the rusted out parts on the GMC, It'll be a 3/4 ton 4x4 with the 355 from the GMC, a 4l80e electronic overdrive transmission, the divorced t-case, and the axles / frame from Ugly. Should be a nice rig! Get about 20 mpg too!
